ABSOLUTE Property Services & Solutions in Parkstone offer a one-stop-shop for all your property maintenance, renovation and development requirements.

"At Absolute we offer six core property services through our in-house specialist divisions and every other property service a customer requires through our property concierge team," says Daniel Hamer, co-Director of Absolute.

"We're aiming to provide complete peace of mind for every job by guaranteeing the highest standards of workmanship, excellence in customer service and competitive pricing."

Absolute Property Services is run by a four-person team made up of Operations Director David Haines, Directors Daniel Hamer and Adam Sumner and Account Manager Clem Haines.

"David is a former Dorset resident and has 35 years of construction and property maintenance experience, while Adam and I have experience of running large freeholds in London and Clem, also a former Dorset resident, has strong experience working as an account manager for a leading concierge company," says Daniel.

"Having run our own freeholds for a number of years, Adam and I became very aware of exactly how poor the services offered to property owners by some tradesman can be. The work can be very shoddy and often very expensive," says Daniel.

Over the past year, the Absolute team has been vetting tradesmen in all aspects of property services, selecting only those who match their own high standards and that are accredited by the relevant trades organisation.

"Absolute's team of tradesmen represent the company ethos that

Absolutely fabulous!

dovetails excellent customer service with outstanding craftsmanship and great value for money," says Daniel.

"Working with tradesmen can often be a challenging experience, however, our highly qualified account management team will not only find the right solution to your property requirement but manage it every step of the way."

In the last 12 months Adam and Daniel conducted extensive market research to ensure they priced their services competitively for the high standard of work that will be undertaken.

"We're going to be offering an excellent service at a very competitive price," says Daniel.

"As specialists in all our core property services, our priority is to provide a service that ensures our customers return to us for all their property needs – that means they have to receive great service and feel like they are getting value for money."

As well as offering property services across each core trade, Absolute also runs a Concierge Service free of charge to customers. "Our account management team can assist you with

any service you require related to your home. From finding a cleaner or a house sitter to curing your trees, Absolute will quickly find you what you're looking for.

"We have established relationships with suppliers who understand Absolute's service guarantee across a huge range of property services.

"Absolute concierge was created to cater for the demands of the ever-busier lifestyles of our customers by providing on hand expert help and assistance.

"We can significantly simplify your home life or save your busi-

ness time and money by managing the tedious and the time-consuming tasks.

"We provide our concierge service free of charge with our customers receiving the same price as they would direct from the partners we work with.

"Our business will be 50 per cent residential customers and 50 per cent commercial customers, so we are ready to deal with anything from a leaky tap to a full-scale office refurb."
